INDEX: VOLUME 37

AUTHORS, SUBJECTS AND TYPES

Accounting, 215-226.
Type: Application of mathematical model, 128-138.
Attitude changes, 190-214.
Attitude formation, 190-214.
Attraction, 59-76.
Avoidance behavior, 190-214.
Autonomous systems, 39-58.
Badalamenti, Anthony F., 157-180, 234. See Langs, Robert J.
Boundary, 1-38.
Causation, 181-189.
Cognition, 39-58.
Communication, 157-180.
Community, 109-127, 250-274.
Competence, 39-58.
Competitive learning, 81-108.
Compromises, 190-214.
Computer interface, 294-309.
Concorcet, 250-274.
Conglomerates, 139-152.
Convergence, 59-76.
Conversation, 128-138.
Csanádi, M., 81-108, 155. See Lörincz, A.
Database, 294-309.
Davidson, Frank P., 310-311.
Decider, 250-274, 275-293.
Decision-making, 81-108, 139-152, 181-189.
Demanding, 39-58.
Direct Interactions, 190-214.
Divergence, 59-76.
Dyad, 128-138.
Dynamical system, 237-249.
Electoral procedures, 250-274.
Emergence, 59-76.
Entropy, 157-180, 275-294.
Ethics, 227-231.
Exchanging, 59-76.
Felsenthal, Dan. S., 109-127, 155. See Maoz, Zeev; 250-274, 312. See also Mosh Machover.
Firm, 275-294.
Frequency locking, 190-214.
Greenwood, Dan, 232-233.
Harris, Philp R., 232-233, 310-311.
Helbing, 190-214, 234.
Heylighen, Francis,39-58, 77.
Human motivation, 39-58.
Humanistic Psychology, 39-58.
Hypotheses, 215-226.
Indirect interactions, 190-214.
Individual, 128-138.
Information, 1-38, 59-76, 237-249.
Interacting populations, 190-214.
International system, 109-127.
Kiel, L. Douglas, 59-76, 77, see Lusch, Robert F. and Schumacher, B.G.
Langs, Robert J., 157-180, 234. See Badalamenti, Anthony F.
Living Systems Theory, 1-38, 215-226.
Laszlo, Ervin, 237-249, 312.
Lombardi, Mauro, 275-293, 312.
Lörincz, A., 81-108, 155.
Lusch, Robert F., 59-76, 77, see Kiel, L. Douglas and Schumacher, B.G.
Majoritarian Principle, 250-274.
Marketing, 59-76.
Master equation, 190-214.
Type: mathematical model, 109-127, 157-180, 181-189, 250-274.
Type: mathematical model and theory, 81-108, 190-214.
Machover, Moshé, 250-274, 312.
Matter-energy, 1-38.
Meader, C. Lawrence, 310-311.
Mean field, 190-214.
Miller, James Grier, 1-38, 78
Miller, Jessie L., 1-38, 78, see Miller, James Grier.
Moaz, Zeev, 109-127, 155.
Multi-winner elections, 109-127.
Natural language, 294-309.
Navon, David, 181-189, 234.
Neural network, 81-108.
Type: Nonquantitative theory, 1-38, 39-58, 59-76, 139-152, 215-226, 237-249, 275-294.
Normative criteria, 109-127, 250-274.
Ontological insecurity, 139-152.
Operating language, 294-309.
Organization, 109-127, 139-152, 215-226,

Miller, Jessie L., 1-38, 78, see Miller, James Grier.
Moaz, Zeev, 109-127, 155.
Multi-winner elections, 109-127.
Natural language, 294-309.
Navon, David, 181-189, 234.
Neural network, 81-108.
Type: Nonquantitative theory, 1-38, 39-58, 59-76, 139-152, 215-226, 237-249, 275-294.
Normative criteria, 109-127, 250-274.
Ontological insecurity, 139-152.
Operating language, 294-309.
Organization, 109-127, 139-152, 215-226,

250-274, 275-294.
Party-state, 81-108.
People and votes, 109-127.
Persuasion, 190-214.
Prevention, 181-189.
Probability, 190-214.
Problem-solving, 39-58.
Proliferance, 59-76.
Psychotherapy, 157-180.
Remedy, 181-189.
Reproducer, 1-38.
Schizoid, 139-152.
Schumacher, B.G., 59-76, 78, see Kiel, L. Douglas and Lusch, Robert F.
Self-actuatialization, 39-58.
Single-state electoral procedures, 109-127, 250-274.
Slaugher, John Brooks, 227-231, 234.
Social change, 237-249.
Social choice functions, 109-127, 250-274.
Social interaction system, 128-138.
Social relationships, 139-152.
Society, 109-127, 250-274.
Software, 294-309.
Subsystems, 1-38.
Supplying, 59-76, 155.
Supranational system, 250-274.
Swanson, D. L., 139-152.
Swanson, G.A., 153-154, 215-226, 235.
Technical-economic formation, 275-294.
Technology, 237-249.
Thermodynamics, 157-180.
Time and frequency domain, 128-138.
Toledo, Sue Walker, 294-309, 312.
Vocal activity, 128-138.
Warner, Rebecca, 128-138, 156.
